Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 44, 53-56, 61-63, and 65 are rejected under 35 U.S.C. 102(e) as being anticipated by Duncan (6,024,262).

Duncan discloses an overhead console assembly having two spaced apart rails (10,11) that receive an accessory module (30). The rails are placed adjacent to a roof (not shown) and extend in the vehicle's longitudinal direction. The accessory module (30) is selectively positionable and removably securable to the rails (10,11). The module (30) has walls that extend between the rails (10,11). These walls define part of a housing that stores the electronics of the display screen. The rails (10,11) form a console housing that has exterior surfaces that are used to secure the accessory module (30) with the use of screws that engage the securement surfaces.

Allowable Subject Matter

3. Claims 1-43 are allowed.
4. Claims 45-52, 57-60, 64, and 66 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
